

Clinical Fellowship in Laparoscopic Bariatric Surgery

The global pandemic in morbid obesity has led to provision of bariatric services in established institutions in several countries worldwide. The Institute of Minimal Access, Metabolic & Bariatric Surgery at Max Healthcare, Saket provides opportunities to interested experienced laparoscopic surgeons to enroll for a Fellowship program in Laparoscopic Bariatric Surgery. This fellowship program is essentially a multi-disciplinary weight management program that revolves around the bariatric surgical services provided at the institute. Didactic sessions give extensive information on indications, choice of surgical procedures, surgical technique, instrumentation, risks and outcomes of bariatric procedures. Fellows would initially observe and then assist in bariatric surgical procedures. The Fellowship is a full time appointment and Fellows are expected to integrate into the academic activities and output of the Institute.

The Fellowship program duration is 6 months and the post is stipendiary.

Interested candidates may kindly apply with a detailed CV to:
